Managing Safely

An introduction for managers and supervisors to develop their H&S knowledge to support the workplace

This three-day course is designed to give managers, supervisors and any employee an understanding of everyone's responsibilities in the workplace, enabling them to recognise how they can influence, control and monitor risk to help improve health & safety within their workplace.

Managing Safely® is unlike any other course. It's a practical programme with a sharp business focus, full of step-by-step guidance. You'll find the highly innovative format and content engaging and inspiring your staff – critical to getting safety and health embedded across the whole organisation. Importantly, Managing Safely makes a powerful case for safety and health being an integral part of day-to-day management and business.

Who is this course for?

Managing Safely is designed for managers and supervisors in any sector and in organisations of all sizes. They won't suddenly become safety experts – but they'll get up-to-speed on the practical actions they need to take and gain the knowledge and tools to tackle the H&S issues they're responsible for.

Our course will cover:

- Assessing risks
- Controlling risks
- Understanding responsibilities
- Understanding hazards
- Investigating incidents
- Measuring performance

What does the Organisation get?

- Globally recognised and respected certificated training for your managers
- Peace of mind from training designed and quality-assured by the Chartered body for Safety & Health Professionals
- Flexibility with a programme deliverable to suit your needs
- Cost-effective learning – health, safety and environmental covered in a single programme.

This market-leading H&S course is tried, tested and trusted. Designed to provide the confidence and enthusiasm to apply knowledge to the workplace and help embed a positive H&S culture.

Book on to one of our open courses or contact us to discount group booking for training at your venue. We also provide the IOSH Working Safely for employees in all workplaces, giving them the knowledge to support their organisations to reduce risk and harm.
