

IOSH

Working Safely

An introduction for employees to develop their H&S knowledge to support the workplace

This one-day course is designed to give your employees an understanding of everyone's responsibilities in the workplace, enabling them to recognise how they can support the organisation in managing risk, to help improve health & safety within their workplace.

The Working Safely approach to safety and health training is exactly that: a high-impact programme designed to be fun and get people fully involved. One of the beauties of IOSH Working Safely® is its simplicity – the lack of complex legal jargon allows the training to focus on the practicalities people need to know to do their jobs safely and healthily, for them and for their colleagues.

Who is this course for?

Working Safely is designed for any employee, in any sector, and in organisations of all sizes. They won't suddenly become safety experts – but they'll get the foundation in the essentials of H&S. It gives everyone an understanding of why they need to work safely and healthily.

Our course will cover:

- An outline of Occupational Safety & Health
- Definitions of Hazard and Risk
- Identifying Common Hazards
- Improving Safety Performance

What does the Organisation get?

- Greater productivity, from fewer hours lost due to sickness and accidents
- Improved company-wide safety awareness culture and appreciation of safety measures
- Active employee involvement to improve workplace safety and health
- Employees empowered by effective learning, covering health, safety and environmental basics.

This market-leading H&S course is tried, tested and trusted. Designed to provide the confidence and enthusiasm to apply knowledge to the workplace and help embed a positive H&S culture.

Book on to one of our open courses or get in touch to discuss a discount group booking for training at your venue.

We also provide the IOSH Managing Safely for supervisors and managers in all workplaces and industries, giving them the knowledge to support their organisations to reduce risk and harm. Get in touch to find out more.

Cost per candidate: £120

Dates: 27 May | 24 July | 13 Aug
